

INTRODUCTION

Tonight Kampai! will take you on a journey through Japan. In the manual, you will find a map of the country with 15 cocktails, each inspired by different locations. We will bring you to your desired destinations, wherever that may be. However, due to local restrictions, we are only able to bring you to 7 places. Our tour guides are negotiating entry possibilities as you drink. Just remember that if you get lost in uncharted territories, please remember to call our tour guides for directions.

We suggest observing the local etiquettes at all times to avoid deportation by the authorities. Firstly, if you are traveling as a group, we will accept at most two payments - other payments will be happily received as kind donations. Secondly, glasswares are to remain indoors at all times - we do not have insurance beyond the borders. Thirdly, do not drink alone - you may ask our tour guides to drink with you in case of emergency. We hope you enjoy your time with us 'Lost in Japan; your ultimate destination'.
